# Executive Director's Report

Kahoʻolawe Island Reserve Commission Meeting February 26, 2025

### **Budget, Finance, and Funding**

**FY25 Expenditure Report and Budget Variance**: See attached. Ocean Program Non-Personnel costs are currently exceeding the budget. The Ocean Program was required to start spending the Greens Grant in June 2024 before the corresponding adjustment was in to the budget. With the recent budget amendment, it should bring this line item back on track.

#### Plans, Policies and Procedures

**Long-range Scheduling:** See the attached long-range schedule.

#### **Administration, Staffing and Personnel**

**Commissioner Status Update:** Letters were sent to the State Boards and Commissions Office indicating that the Protect Kahoʻolawe ʻOhana (PKO) will be submitting a new candidate to replace Commissioner Evans, and that Native Hawaiian Organizations (NHO) will be submitting a request for a second term for Commissioner Pang.

#### **KIRC Staff Status Update:**

<u>New Hire for Natural Resource Specialist III:</u> Kale'a Paiva was hired to fill the vacant NRS III and is tentatively scheduled to start the beginning of March 2025. Kale'a is a graduate of the UH-Mānoa Natural Resources & Environmental Management (NREM) Program as well as King Kekaulike Hawaiian Immersion Program. She is currently working for Hawaiian Island Land Trust on Maui.

<u>Cultural Resources Project Coordinator Vacancy</u>: This position is still currently vacant, but we have received a few inquiries regarding the current position description. We are in the process of setting up interviews with KIRC staff and at least one Commissioner. During the previous Commission meeting, the Commission authorized the Executive Director to change the position if a viable candidate was not hired by the end of the fiscal year. If staff finds a qualified and acceptable candidate for the current position, then changing the position description will not be necessary.

<u>Creating a Vice Logistic Specialist position</u>: The current Logistic Specialist is serving her activeduty time with the Coast Guard for the next few months. KIRC staff is developing a Vice Logistic Specialist position so a short-term temporary hire can be made while she is on active duty.

# **Capital Improvement, Reserve Operations and Logistics**

**Update on Base Camp Capital Improvement Project**: Currently Dawson has four tasks under this project:

Executive Director's Report February 26, 2025

Task 1: Roof repairs and elastomeric coating: Materials have been shipped to Base Camp and work started during the February 2025 access. Completion is expected during the March 2025 access.

Task 2: Replace potable water distribution system: Materials are expected to be shipped to Kīhei to be staged in Base Camp during the March 2025 access with work to commence during the April 2025 access. Completion is expected by end of May 2025.

Task 3: Install AC units: Expecting delivery of equipment to be received in Kīhei in May 2025 with transport to Base Camp and installation during the June 2025 access.

Task 4: Building painting: Materials are expected to be received at Kīhei in July with transport and work starting during the July 2025 access.

Dawson also conducted an electrical study of the camp's electrical distribution system and is currently preparing an estimate to utilize the reminder of the CIP funds for a systemwide electrical upgrade.

National Oceanic and Atmospheric Administration (NOAA) Grant Funding for Kīhei Boathouse Expansion: For the past several years, the KIRC has been allowing the NOAA Humpback Whale Sanctuary staff to park and maintain their boat at the Kīhei Boathouse in the adjacent nursery site. , NOAA has aided the KIRC with boat runs on their vessel when the 'Ōhua was down for repairs. NOAA had access to IIAA funding (Invest in America Act) that they wanted to secure prior to the start of the next administration, A project was jointly discussed to expand the boathouse to provide covered storage for the NOAA boat and building additional facilities at the boathouse.

NOAA awarded KIRC a \$1,000,000, two-year grant for a Kihei Boathouse expansion project. The project consists of expanding both sides of the Kihei Boathouse to provide two covered boat parking areas with additional enclosed workshop/storage spaces, building a covered pavilion in the vicinity of the boathouse and constructing a comfort station attached to the pavilion. Once completed, the KIRC will be allowing NOAA long term use of one of the boathouse extensions for their vessel. Currently, the rough cost of all three items (boathouse expansion, pavilion and comfort station) exceeds the funding allocated. KIRC staff is also working with their architecture consultant to better refine the estimate, seek better pricing for planning and permitting and develop a priority construction list.

The funding was transferred to the KIRC through an amendment to an existing DLNR Memorandum of Agreement. The KIRC staff was currently working with NOAA staff to determine the means of accessing these funds with the least risk to KIRC Trust Funds with regards to the current limitations on federal reimbursements.
